

Welcome to the Biotech Portal

Welcome to the Biotech Portal

The Biotech Portal (TBP) is an interactive platform and informative arena where industry professionals can register, advertise and obtain information regarding new products, new technologies, industry news, case studies, investment opportunities and much more. TBP is an online association, aimed at serving the communities of the Life Science, Biotechnology, Pharmaceuticals, Medical Devices and CleanTech industries.

TBP is revolutionizing the way in which the professional community finds relevant news, identifies important information, interacts with each other and researches product purchases. Its aim is to become the most comprehensive and trusted online destination for industry personnel and aspiring professionals alike.

TBP founded by Meir Amarin, a seasoned professional who has been intensively involved with several leading international firms & start-ups, in top executive positions.

TBP features:

- Industry news

- Members area

- Press releases

- New technologies

- Business directory

- Investment opportunities - soon

- Executive of the week - soon

...and much more
